II. REPORT ON THE FIRST HALF-YEAR RESULTS OF TAKARÉK MORTGAGE BANK GROUP IN 2018

The report of TakaréK Mortgage Bank Public Co Plc. for the first half-year of 2018 is based on the data of the consolidated balance sheet and profit and loss account prepared according to the International Financial Reporting Standards (IFRS). The Group performed the analysis of its operation based on the consolidated, audited figures as of 31 December 2017, non-audited figures as of June 30 2017, June 30 2018. The transition from IAS 39 to IFRS 9 and its effect – in accordance with the standards – was transferred to the opening equity.

Takarék Commercial Bank Ltd., subsidiary of TakaréK Mortgage Bank Plc. and its subsidiary the Hungarian Card Services Ltd. (hereinafter referred to as "Takarék Mortgage Bank Group" or "Group"), according to the Act LIX of 2006, the amount specified as a special tax on financial institutions for the year 2018 – as required by IFRS – fully accounted in the first half of the year, as the amount determined by this law is not disputed and must be paid by the Group till the end of 2018. However, in order to present the impacts of actual operation in the interim reports of the Group, the analysis and comparative indicators of interim reports are based on corrected statements in which only the prorated amount of the special tax for the current period is shown.

To provide comprehensive information for investors, appendix of this interim report presents the financial statements including the special banking tax for the entire business year and the financial statements that include special banking tax pro rata, as well.

1. Summary of the achievements of the past period

Takarék Mortgage Bank Group closed the first half of year of 2018 with a HUF 4.1 billion profit after taxes. This profit is a significant progress compared to the loss from the second half of last year.

Following the strategy of the Integration, in December 2017 TakaréK Mortgage Bank sold all its interest in other companies except in TakaréK Commercial Bank. As a result the consolidated balance sheet and P&L statements only contain data from the two banks and from Hungarian Card Service Ltd. The result of the sold companies reported in the discontinued operations in 2017.

Loan activities

The consolidated amount of refinanced loans grew from HUF 76.6 billion (end of 2017) to HUF 87.6 billion by the end of the first half of 2018, by which the number of transaction has passed 20.000. The full refinanced amount is divided between ten banks since 2017, which is the highest number of partners in refinancing since the establishment of TakaréK Mortgage Bank.

In the first half of 2018 HUF 28.2 billion retail loan and HUF 29 billion corporate loans had been issued, the former is nearly two and a half time higher than in the same period of 2017. In the first six months the amount of residential mortgages increased by 182.8% compared to 2017's half year, which is greatly thanks to the very favorable market environment (interest rates, consumer's purchasing intentions, prosperity of the construction industry and "CSOK" - Family Housing Support Program). The issued fix-term corporate loans still performed exceptionally (HUF 22 billion in H1 2018), while compared to last year's same period it has increased by 81.2%.

The gross amount of loans was HUF 351 billion on the 30 June 2018, which is more by HUF 32.4 billion than it was by the end of last year.

In the first half of 2018 the NPL (stage3) decreased by HUF 6.5 billion thanks to selling of claims from the retail cover pool. As a result the NPL rate dropped from 8.2% to 5.8% in the last six months, however the coverage of the NPLs in accordance to IFRS 9 didn't change significantly.

Savings

The consolidated deposit amount of the Group was HUF 292.8 billion in accordance with IFRS, which is 11.1% lower than it was by the end of last year. Commercial deposits dropped by 23.3% in the last half year. Sight deposits (money to call) reached HUF 182.6 billion by the end of June, which is 62.4% of all the deposits. The slide in the volume of deposits is due to the continuously low market rates that mostly affected the fixed term deposits, causing a huge drop in its popularity, while producing a growth in sight deposits.

By the end of June 2018 TakaréK Commercial Bank managed nearly 204.8 thousand retail and over 12.2 thousand corporate accounts with 176.4 thousand retail cards and 6.6 thousand corporate bank cards. Compared to June 30 2017 this means that the number of retail accounts increased slightly while the volume of required commercial cards decreased. By the end of June the accounts opened at our Posta partner peaked at 72.3 thousand.

The total amounts of assets of the consolidated TakaréK Mortgage Group was HUF 616.8 billion on the 30 June 2018, which is 1% more than it was six month ago, and 7.4% higher (by HUF 42.2 billion) greater than it was a year ago.

Main P&L items

The net interest income of the Group was HUF 6.9 billion in the first half of the year, which is 5.6% higher than a year ago and increased by 11.7% compared to the second half of 2017. The net interest margin on the average balance-sheet total has grown from 2.28% of H1 2017 to 2.32%, which was due to the fact that the interest expenses dropped at a higher rate than the interest income decrease.

The net fee and commission income was HUF 2,557 million, which is slightly less than a year ago by 2.7%.

Compared to the last year the fees and commissions on mortgages, commercial accounts, transactions and cards has increased, while those charged for guarantees and investment services has declined significantly. The main reason is the drop in commissions paid by AKK (Government Debt Management Agency) and the decrease in demands due to a decrease in yields of sovereign debts, furthermore the investment services of the Group had been sold to TakaréKbank which resulted in the change that the Group only acts as an agent regarding investment services.

Operating costs amounted to HUF 7.6 billion in the first half of 2018, down 12.9% from the same period of 2017. There was clear decrease in almost all major expenditure items. The most significant expenditure cut took place in business activities, where costs more than halved compared to the first half of last year. Personnel costs decreased by 19.5% relative to the first half of 2017, mostly due to the fact that corporate headcount markedly narrowed in the second half of last year. At lower dynamics, this still continues even in 2018, thereby resulting in a considerable improvement in per capita efficiency indicators.

The volume of risk costs (impairment and credit losses) is considerably influenced by costs related to portfolio adjustments. These had a negative income impact of HUF 989 million in the first half of 2018, a marked change compared to both the first and second half of 2017. The release of provisions was made possible by selling part of the non-performing loan portfolio, but some deals managed to leave the impaired category by maturing ordinary way. The volume of impairments decreased by HUF 1.8 (11.3%) compared to the end of 2017.

The Group's pre-tax consolidated profit (under IFRS methodology) amounted to HUF 4.9 billion in the first half of 2018 excluding the special banking tax and net income from irregular items.

On 18 June 2018 Moody's Investor Service announced that it has assigned Counterparty Risk Ratings (CRR) to Takarék (previously FHB) Mortgage Bank Co. Plc. based on its new CRR methodology: the new CRR is Ba3, as opposed to Ba2 - under the earlier methodology. The Ba3 CRR is two notches higher than Takarék Mortgage Bank's adjusted baseline credit assessment (BCA) of b2.

Capital position

The National Bank of Hungary – in accordance with the request from the Integrational Organization of Cooperative Credit Institutions (SZHISZ), the Bank of Hungarian Savings Cooperatives Ltd. (Takarékbank), Takarék Mortgage Bank and Takarék Commercial Bank – issued resolution H-EN-I-36./2017 ruling to grant exemption for the Group from the individual and subconsolidated compliance obligations.

The total own funds of the Integrational Organization of Cooperative Credit Institutions amounted over HUF 232 billion at the end of June 2018, while its capital adequacy ratio was 16,72%.

Performance of Takarék Mortgage Bank shares

In terms of capitalisation, Takarék Mortgage Bank has been ranked as 10th in "Premium" category listed companies and contributes with 0.53% to the aggregate capitalisation of the BSE based on 30 June 2018 data.

As of the end of June in 2018, Takarék Mortgage Bank weight in the BUX index was 0.20%, while in BUMIX, which is the index of share prices of mid- and small-cap companies, it was 2.98%.

The share price of Takarék Mortgage Bank on June 30, 2018 closed at HUF 565, compared to the closing price of HUF 741 on 31 December 2017. In the first half of 2018, the share price of the Group fluctuated between HUF 537 and HUF 764 compared to its previous half year band which was between 501-724 HUF.

The stock market turnover of the shares of Takarék Mortgage Plc. barely exceeded 1 billion HUF in the first half of 2018, compared to nearly 5.9 billion for the previous half of the year. The average daily turnover dropped to HUF 8.4 million in the first half of 2018 from HUF 46.7 million in the previous half of the year.

2. Strategy, strategic goal and outlook of the Group

The strategy of Takarék Commercial Bank and Takarék Mortgage Bank is an integral part of the strategy of the whole Takarék Group. The two Banks made significant steps in realizing their main goals laid down in the Takarék Group's 2017-2021 strategic plan.

The main goal of the Takarék Group is to develop a financial group that provides sophisticated top quality financial services in a unified framework. Major achievements towards this ultimate goal were reached in 2017 and in the first half of 2018. The central banking functions within the Group by now are provided solely by Takarékbank, since Takarék Mortgage Bank transferred all its governing functions to the former. The satellite companies of Takarék Group (including fund management, leasing, factoring and central workout activities) are directly governed by Takarékbank. Takarékbank also manages the Group's money and capital market activities, including the management of securities accounts. From 2018 Takarék Commercial Bank provides investment services only as an agent of Takarékbank.

In the first half of 2018 both the Commercial Bank and the Mortgage Bank was renamed to bear the „Takarék” brand in its name, thereby strengthening the commitment within Takarék Group. In the context of the unified corporate governance system a new business intelligence based process was implemented, which helps evaluating and measuring sales and executive performance, with a complete integrated data warehouse in the background. Unified planning processes have been introduced within Takarék Group and the models of servicing clients and the supply of standard products were also restructured on common principles.

It is expected that by September 2018 Takarék Group's strategy will be revised (on a rolling basis) and also extended. The main directions will be the deepening of synergies between Group members, with a view of markedly improving Takarék Group's competitive edge.

Strategy of Takarék Mortgage Bank

Complying with the currently valid strategy, Takarék Mortgage Bank ceased to offer direct loans to clients from April 2018. Loan applications that are already on their way will be accepted, and upon positive assessment sums will be disbursed, while existing loan contracts will remain in the Bank's books. But direct lending to clients is fully taken over by Takarék Commercial Bank.

Along the lines of pure mortgage functions Takarék Mortgage Bank from now focuses on only provides refinancing functions as well as issuing covered bonds. It provides refinancing services not only to the members of the Takarék Group, but also to other entities based on agreements with large and medium-sized banks and financial companies. Takarék Mortgage Bank concerns to retain its status as the second largest domestic issuer of covered bonds, keeping its pricing policy competitive and refinancing large stock of mortgage loans. This is also supported by favourable changes in regulation and market developments in 2018, including the sustainably expansive housing loan market, the regulation regarding the requirement growth of the Mortgage Financing Adequacy Ratio from October, and the NBH intervention on the covered bond market generating additional demand.

Strategy of Takarék Commercial Bank

The largest commercial bank of the Takarék Group represents the Takarék Group as a prestigious financial institution capable of competing with leading banking groups in Budapest and major urban areas. It adequately complements the smaller cooperative credit institutions especially in the corporate segment with its ability to offer cross-selling functions and organizing consortial lending. Takarék Commercial Bank was assigned a primary role in strengthening the segment of large corporations, in the build-up of a new servicing profile and the introduction of new, competitive products that will be offered group-wide.

Takarék Commercial Bank – through its branch network in larger cities – will become a decisive member of the Takarék Group, with a commitment to develop its services to better serve the needs of its premium and private clients.

Trend of market environment

In the first half of 2018 the Hungarian economy expanded at a 5% annual rate, which – similarly to 2017 – was driven by strengthening domestic demand. Investments, which increased by around 15%, were the primary drivers of GDP-growth, but household consumption, fueled by above 10% wage growth and continued improvements in the labor market, also contributed strongly. Thus, credit growth, which has not been bounded from the supply side even since 2015, continued to get support from the demand side as well. New disbursements in the household loan segment increased by almost 35% year-on-year in the first half of 2018, whereas in the corporate segment new credit lines were close to 15% higher between January and June than in the same period last year.

Activity in the real estate market, which has crucial importance from the Group's aspect, remained strong: there was marked growth in the residential real estate segment as well as that of the industrial, retail and office segments. This is clearly manifest in the higher than 30% year-on-year growth in the number of newly built homes and the steeply falling vacancy rates in the case of rentable industrial and commercial real estate. Due to the rise in new mortgage loans as well as the more stringent regulation concerning mortgage financing compliance from October 2018, the market of covered bonds is also on the rise, which is further supported by the central bank's covered bonds purchase program.

3. Main activities and subsidiaries' performance

Own lending

Volume of gross own sale loans of the Group amounted to HUF 351 billion as of 30 June 2018, increased by 7.3% compared to the previous half year's figure (HUF 327.2 billion), while year-on-year the increase was 10.2%. Share of FX based loans in total outstanding loan portfolio was 10.0%, which is the same as at the end of 2017, but lower than the percentage 11.1% of a year before. The share of FX loans within retail loans has declined steadily, dropping by half over the last one year.

Retail loans remained dominating within the loan portfolio with a contribution of 57.8% (62.0% on 30 June 2017). Retail loans increased by 4.3% (or by HUF 8.4 billion) compared to the end of December 2017 and increased by HUF 5.3 billion (or by 2.7%) year-on-year.

in HUF million	30/06/2017	31/12/2017	30/06/2018	30/06/2018/ 31/12/2017	30/06/2018/ 30/06/2017

Refinanced loans	56,884	76,597	87,556	14.3%	53.9%

*The retail and corporate real estate leasing, and equipment leasing with the sale of TakaréK Lizing Zrt. (Takarék Leasing Ltd.) before 31 December 2017 (Takarékbank Zrt. purchased the company 100%) is out of scope.

In the first half of 2018 HUF 28.2 billion retail and HUF 29 billion corporate loans have been disbursed; the former figure is two and a half times higher than in the same period of 2017. During the first half of the year the volume of corporate loans disbursement grew by HUF 7.6 billion, while the volume of retail disbursement grew by HUF 10.0 billion, showing 36.9% and 53.8% growth compared to the second half of 2017, respectively. In the first half of 2018 the Group disbursed HUF 236 million loans to corporate customers within the framework of Funding for Growth Scheme which is 87.2% lower than in the same period of 2017. Among corporate loans the disbursement of fixed purpose loans is significant (HUF 22.0 billion in H1 2018), which increased by 81.2% compared to the same period of the previous year (H1 2017). In the first 6 months of 2018 the volume of disbursed housing loans was 182.8% higher than in the same period of 2017, due to the favourable market environment (interest, demand, boom in the construction industry, Non-Refundable Family Home Creating Benefit ('CSOK')). This trend has been already observed in the second half of the last year (70.4% rise), since July 2017 the disbursements increased steadily, which reached a peak disbursement of HUF 24.4 billion in the last half year. Growth can be observed in the cases of mortgage-backed general purpose loans (16.9%), debt consolidation loans (76.1%) and personal loans, which disbursements was higher with HUF 1.164 million in the first half of 2018 than in the same period of the previous year, which means an increase of 96.9%.

In case of Non-Refundable Family Home Creating Benefit ('CSOK') 5,181 loan applications had been approved from the introduction in June 2015 until the end of June 2018, from which the number of disbursed loans was nearly 4,000 with a total volume of HUF 13.9 billion. Clients also submitted loan applications besides CSOK in 30% of all cases, but this rate has dropped significantly in the last year.

Refinancing

By the end of the first half of 2018, the consolidated refinancing stock (excluding intercompany refinancing) has increased from the end of year 2017 from the amount of HUF 76.5 billion to HUF 87.4 billion. The number of refinanced credit transactions were 20,368. The total refinanced stock is distributed among 10 banks also in 2018.

Regarding to the introduction of the JMM indicator on 1 April 2017 (NBH Regulations 20/2015 and 6/2016), initially commercial banks had to have a compliance with the minimum level of 15%. The mandatory JMM ratio will rise up to 20% from 1 October 2018, and therefore, significant refinancing activity is expected in the next quarter with further growth in the refinancing stock amount.

Takarék Commercial Bank

According to HAS (Hungarian Accounting Standards) Takarék Commercial Bank's stock of gross credit amounted to HUF 269.5 billion on the 30 June 2018, which is 16.5% growth on a year-on-year basis. This stock represents 62.3% of total assets. The stock of corporate credit (again according to HAS and excluding intra-Group credit) was HUF 134.9 billion at the end of the second quarter, rising 8.9% from the end of year 2017. Corporate credit accounts for 45.8% of total credit.

Interest bearing liabilities amounted to HUF 395.2 billion at the end of June, accounting for 91.4% of total liabilities. While this is a fall of 8% on a quarterly basis, on annual basis it is still a slight growth of 1.8%. Within this stock the share of client deposits amounts to 74.1% (with a volume of HUF 292.9 billion in accordance with HAS), while the rest (i.e. HUF 102.3 billion) is in the form of interbank deposits, which cover refinancing from Takarék Mortgage Bank and also from the National Bank of Hungary (NBH) through its Funds for Growth lending scheme.

The stock of deposits increased by 2.9% compared to first half year 2017, while it decreased by 11.1% from end of 2017. Household deposits shrank 23.3% compared to the end of last year. The volume of sight deposits was HUF 182.6 billion at the end of the second quarter of 2018, representing 62.4% of all deposits. The main reason behind the shrinking stock of deposits is the protracted low level of interest rates, which mostly affected term deposits, whereas the stock of sight deposits even increased.

At the end of June 2018 Takarék Commercial Bank managed 204.8 thousand household and 12.2 thousand corporate current accounts, to which there belonged 176.4 thousand household and 6.6 thousand corporate cards. Compared to a year ago there was a slight decrease in the number of household current accounts and the number of cards issued to households were also on a decline. Meanwhile, the number of accounts managed through the Hungarian Post Office (as partner) has risen to 72.3 thousand.

The net interest income of Takarék Commercial Bank – under controlling methods – increased by 11.3% in the first half of 2018 compared to the same period of 2017, mainly due to a steeper fall (-43%) of interest expenditures than that of interest income (-20.6%). Net income from fees and commission in the first half of 2018 fell short by 29.6% of that in the first half of 2017. Operating costs in the first six months of 2018 were 14.2% lower than in the same period of 2017.

Hungarian card Services Ltd.

Hungarian Card Services Ltd., as the subsidiary of TakaréK Commercial Bank provides POS, ATM and card services to Hungarian Post Card Centre Ltd. as well as to TakaréK Commercial Bank. In the first half of 2018, the net sales revenue exceeded HUF 230 million, which was slightly below that of the first half of 2017. Material expenses were favorable by 13% and the personnel expenditures were lower by 9% than in the first half of 2017. At the end of 2017, a number of assets were derecognised, which is why the depreciation decreased by 20% in 2018. Meanwhile keeping up with the Company's level of revenues, it was able to achieve significant cost savings in the first half of 2018, resulting a significantly lower loss compared to loss for the same period in 2017.

Organisational changes and headcount

As of 30th June 2018, the consolidated full-time equivalent (FTE) headcount was 815.6, which meant a decrease by 79 employees compared to the same period of last year (894.6), but compared to the amount at the end of 2017 (811.4) it increased by 4.2 employees. The most significant contribution to the decrease recognised during one year was made by TakaréK Mortgage Bank with 86.6 employees. The reduction in the number of employees was based on the objectives of TakaréK Mortgage Bank strategy, which means as from 2018, the bank has been purely functioning as mortgage banking. As planned, TakaréK Mortgage Bank transferred its business, mortgage-based lending functions to TakaréK Commercial Bank, and the Group management tasks and Group server infrastructure to TakaréKbank.

Headcounts of the Group members were as follows:

	30/06/2017	31/12/2017	30/06/2018	30/06/2018/ 30/06/2017	30/06/2018/ 31/12/2017
Takarék Mortgage Bank Plc.	122.2	48.6	35.6	-70.9%	-26.8%
Takarék Commercial Bank Ltd.	758.9	749.4	766.6	1.0%	2.3%
Hungarian Card Ltd.	13.5	13.4	13.4	-0.7%	0.2%
Takarék Mortgage Bank Consolidated	894.6	811.4	815.6	-8.8%	0.5%

Changes in key position

Takarék Mortgage Bank Plc.

Erika Edit Tóth resigned from her membership from the Board of Directors on April 26, 2018. The 2018's annual General Assembly Meeting of the Company elected András Banner as member of the Board of Directors on the 27th of April, 2018. At the same General Assembly Meeting Dr. Boldizsár Szabó was re-elected as a member of the Supervisory Board, also Gábor Eőry and Dr. Csaba András Bencze were elected as Supervisory Board members. At the same time, Zoltán Illés and Dr. Csaba András Bencze were elected as Audit members of the Committee.

Without holding a General Assembly Meeting, the Company decided on February 21, 2018, to elect by decision-making rule Csaba Thurzó as member of the Supervisory Board and as member of the Audit Committee. With regard to the approval of NBH authorization, Csaba Thurzó's starting date for the legal relationship was on March 23, 2018.

In the Company Erika Edit Tóth and Edit Kovács Deputy CEOs were terminated by mutual agreement with effect from June 1, 2018.

Post-balance sheet date events

The Group's consolidated profit after tax according to IFRS amounted to HUF 4,144 million gain in the first six months of 2018, which is a positive change compared to the negative amount from the end of 2017.

In the second half of 2017 the profit before tax of the Group was HUF 9,688 million loss, and the profit after tax was HUF 11,541 million loss.

During the first six months of the year, the special tax on financial institutions in amount of HUF 419 million and the financial transaction levy (HUF 314 million) was charged as a significant one-off item. The profit after taxation without banking tax and other non-recurring items was a gain of HUF 4,876 million

Net interest income

Net interest income was HUF 7.0 billion in the first six months of 2018, 5.6% higher than a year before, and it showed 11.7% increase compared to the H2 2017 (HUF 6.2 billion). The net figure of the H1 2018 consist of the balance of HUF 11.0 billion interest income (4.9% lower year-on-year, and 0.9% lower compared to H2 2017) and HUF 4.0 billion interest expense (y/y: -18.7%, h/h: -16.9%).

Breakdown of interest income and expenses:

	H1 2017	H2 2017	H1 2018	H1 2018 / H1 2017	H1 2018 / H2 2017

Other interest expense	-6	-6	-25	-	298.2%

The net interest margin to average total assets (NIM) was 2.29% in H1 2018 which is 20 bps higher than in the previous half year. The net interest margin which is projected to the average total assets increased as a result of the increasing total assets, as well as a higher fall in interest expense compared to interest income.

Net fee and commission income

The net fee and commission income was HUF 2.557 million in the first half of 2018, which is slightly less than a year ago by 2.7%.

Compared to last year the fees and commissions on mortgages, commercial accounts, transactions and cards has increased, while those charged for guarantees and investment services has declined significantly (by 73,5%, and 60,6%). The main reason is the drop in commissions paid by AKK (Government Debt Management Agency) and the decrease in demand due to a decrease in yields of sovereign debts, furthermore the investment services of the Group had been sold to Takarékbank which resulted in the change that the Group only acts as an agent regarding investment services.

In the first half of 2018 total revenues from fees and commissions amounted to HUF 4,080 million. This is an 8.3% growth compared to the first half of 2017. 34.9% of revenues from fees and commissions came from account managing services and fees (excluding the transaction tax) from card related services.

Total expenditures on fees and commissions were HUF 1,523 million in the first half of 2018, an increase of 33.9% compared to the same period of last year. Expenditures related to the card business itself, increased by 15.9% in the same period.

Net result of financial transactions

In the first six months of 2018, the profit from financial transactions was HUF 4,873 million, which is significantly higher than the profit in the same period of the previous year (HUF 1,724 million).

In H1 2018, the result from foreign exchange differences was HUF 202 million gain, that is unfavourable than the result of the same period of the previous year (HUF 317 million gain).

In H1 2018, the change in the value of financial instruments reported at fair value through P&L was HUF 3,552 million gain, which is significantly higher than the HUF 801 million result in H1 2017. The growth is due to the positive fair value difference recognized in/on the special Interest Rate Swap transactions with monetary policy purpose ("MIRS transactions"). In case of MIRS transactions the underlying transactions are fixed rate government securities and other fixed rate assets, which are measured at amortized cost or through other comprehensive income. Since the economic hedge is not 1-1 hedging relationship the accounting of hedging relationship has not been introduced, but the position can not be regarded as an open position in economic terms.

In the first half of 2018, the security transactions resulted HUF 1,118 million profit as opposed to HUF 590 million in the same period of the previous year.

Other operating income and expenditure

In the first half-year of 2018, the net operating income was HUF 1,500 million net expenditure, arising from HUF 1,439 million incomes and HUF 2,939 million expenditures.

In the first six months of 2018 the Group realised HUF 173 million income from card service fees of Hungarian Card Service Plc.

Special banking tax amounted to HUF 419 million in the first six months of 2018, the fees of deposit protection funds, other statutory and voluntary funds, and membership fees of SZHISZ amounted to HUF 645 million, while paid financial transaction levy was HUF 1,267 million.

Impairments on loan losses

Risk costs amounted to HUF 989 million in the first half of 2018, this means a decrease compared to the second half of 2017. The release of impairment is the result of selling part of the non-performing loan portfolio, some deals managed to leave the impaired category by maturing ordinary way. The volume of impairments decreased by 11.3%, by HUF 1.9 billion compared to the end of previous year

Operating costs

Operating costs amounted to HUF 7.6 billion in the first half of 2018, down 12.9% from the same period of 2017. There was clear decrease in almost all major expenditure items. The most significant expenditure cut took place in business activities, where costs more than halved compared to the first half of last year.

Personnel costs decreased by 19.5% relative to the first half of 2017, mostly due to the fact that Group's headcount markedly narrowed in the second half of last year (by 13% on annual average, by 18.8%

considering the closing balances of headcount). At lower dynamics, this still continues even in 2018, thereby resulting in a considerable improvement in per capita efficiency indicators.

The costs of standard banking operations amounted to HUF 4,260 million in the first half of 2018, down 4.8% from the same period of 2017.

Costs related to business activities in the first half of 2018, amounting to only HUF 100 million, significantly below the HUF 211 million realised in the first half of 2017.

Depreciation amounted to HUF 160 million in the first half of 2018, HUF 53 million lower than in the same period of last year (this is a decrease of close to 25%).

The sum of other taxes and levies that are classified as operating cost also narrowed in the first half of 2018. They amounted to HUF 17 million, down 13.8% from the same period of 2017.

As of 30 June 2018, the Group's IFRS based consolidated total assets amounted to HUF 616.8 billion, which is 1% (HUF 6.3 billion) higher than as at the end of previous year; and 7.4% higher than the same period of previous year.

On the asset side the volume of financial assets at fair value through other comprehensive income decreased by HUF 13.5 billion or 10.6% year-on-year, meanwhile the refinanced loans increased by HUF 11 billion and 14.3% compared to the end of previous year.

Loans increased by HUF 23.8 billion, or 7.3% compared to the end of previous year. Significant growth can be observed at the fair value of derivative transactions, it increased to more than HUF 5.1 billion.

Liabilities increased merely by 0.8% compared to the end in previous year. Compared to the same period in 2017 interbank liabilities doubled, the volume of issued bonds fell by 15.3%, while the volume of mortgage bonds increased by 5.3%. Besides, the deposits decreased by HUF 36.4 billion in the last six months (11.1%).

Shareholders' equity increased by HUF 1.8 billion, 3.5% during the first half year of 2018, in contrast with the decrease of 9.4% year-on-year. Compared to the same period of last year, shareholder's equity change is due to the losses realised in the second half of 2017. During the first half of 2018, the net result attributable to equity holders contributed to the increase in amount of HUF 2.7 million.

Interest earning assets

The Group's interest earning assets increased from HUF 599.1 billion as of 31 December 2017 to HUF 599.3 billion as of 30 June 2018. Interest earning assets contributed 97.2% to the total assets.

NBH and other interbank lending decreased from HUF 82.0 billion as of the end of December 2017 to HUF 58.7 billion as of 30 June 2018, which is 20.4% lower compared to the volume of HUF 73.8 billion in the same period of the previous year. The proportion of this item in interest earning assets dropped from 13.7% at the end of 2017 to 9.8% by the end of first half of 2018. During the first half the volume of interbank lending decreased by HUF 23.2 billion.

The value of Group's financial assets at fair value through other comprehensive income and held for trading (FVTPL) decreased from HUF 126.8 billion as of 31 December 2017 to HUF 113.4 billion by 30 June 2018 (this stock is fully available-for sale, which fair value changes have to be booked through Other Comprehensive Income). The value of securities was HUF 119.4 billion in the same period of 2017 compared to it the stock declined by 5.1%. At the end of H1 2018, securities at fair value through other comprehensive income contributed 18.9% to interest earning assets. Investment services of Takaré Commercial Bank was taken over in December 2017 by Takarébank. In January 2018 the remaining held for trading stock partly were sold, partly were reclassified to the FVTOCI (Fair Value to Other Comprehensive Income defined as available-for sale in 2017) category, because of business model change.

Loans

As of 30 June 2018, volume of loans was 10.2% higher year-on-year, and increased on half year basis by 7.3%. In the first half of 2018 the impairment for loan losses amounted to HUF 14.7 billion, which is 11.3% lower than on 31 December 2017 and 26.5% lower compared to 30 June 2017 in connection with the drop of volume of non-performing loans.

Refinancing loans increased by 14.3% to HUF 87.5 billion in the last half year, while there was a 53.9% growth related to this item over the last year. As of 30 June 2018, contribution of refinanced loans and gross own lending was 70.7% of interest earning assets; this rate was 64.4% a year before.

Portfolio quality

In the first half of 2018 the volume of non-performing loans (stage 3) decreased by HUF 6.5 billion thanks to the receivables sold from the retail hedging portfolio. NPL ratio declined from 8.2% to 5.8% by 30 June 2018. Based on IFRS 9 the coverage of non-performing loans has not changed significantly compared to the year end of 2017.

Other assets

Tangible assets amounted to HUF 2.7 billion as of 30 June 2018 and decreased by HUF 2.1 billion year-on-year and decreased by HUF 151 million in the last half year. By the end of June in 2018, intangibles amounted to HUF 1.0 billion, which declined to the half of the value a year ago because of the impairment (HUF 825 million) accounted to the intangibles of Hungarian Card Services Ltd. and decreased by HUF 57 million or 5.1% compared to the 31 December 2017 figure.

Value of investment in associates and joint ventures consolidated by equity method is zero because the Group has sold the satellite financial entities in December 2017 to Takarékbank, the leader of the Integration and the Magyar Takarékbefektetési és Vagyongazdálkodási Ltd. has been sold to an external investor.

Other assets amounted to HUF 9.2 billion as of 30 June 2018, decreasing by 20.1% (HUF 2.3 billion) year-on-year. Deferred tax assets reached HUF 770.1 million, and value of real estates reported as inventory was HUF 185.6 million.

Interest-bearing liabilities

The volume of interest-bearing liabilities increased from HUF 547.2 billion from December 31, 2017 data to HUF 551.8 billion on 30 June 2018 data, which means a 89.4% proportion rate on the total assets. A year earlier, the overwhelming majority of the interest-bearing liabilities held 56% of the deposits, and by the end of the first half of 2018, the ratio barely changed, it has decreased to 53.1%. The share of issuing securities fell from 35.6% to 34.8% in interest-bearing liabilities over a year period till the 30th of June 2018, meanwhile this proportion was 33.6% at the end of year 2017.

Interbank funds

By the end of June 2018 the amount of HUF 66.7 billion interbank funds has doubled compared to end of last year's amount, while an annual growth of 56.5% was observed. The interest rate of interbank borrowings was 12.1% on 30 June 2018.

CMBs issued

The National Bank of Hungary (NBH) launched its covered bond purchasing program in February 2018. Takarékbank was the first bank that organised covered bond auctions fully meeting the conditions of the aforementioned program. On the auctions NBH placed its bids deeply below the market level, consequently spreads between average auction yields for Takarékbank and government benchmark bonds dropped to historic lows (govies -13 bp) in the first quarter, while it moved around government bond benchmark yields in the second quarter.

Takarék Mortgage Bank was very active in the capital market in the first half of 2018. The issuances were driven by the required compliance to the Mortgage Funding Adequacy Ratio (MFAR) by the refinancing partner banks, but the structure of the securities was also determined by the aforementioned covered bond purchasing program of NBH. Takarékbank, meeting all the preconditions of the program, issued covered bonds with exclusively fixed interest rate and longer than 3 years maturity. First in two years time Takarékbank issued again senior unsecured bonds with floating interest, and during the subscription period it sold HUF 20 billion at par. This issued bonds are in Takarékbank Commercial Bank portfolio on 30 June 2018, so the amount of new issued bonds is zero in consolidation level.

In January Takarékbank organised an auction offering a three years remaining maturity covered bond series, it sold HUF 1.2 billion at 0.95% average yield, which corresponds to 22bp spread over the govie benchmark.

In the NBH program – started in February – Takarékbank participated with two five years maturity fixed interest rate covered bond series (FJ23NF01 with fixed 1.45% coupon, and FJ23NF02 with fixed 1.60% coupon) and one unusually long, 10 years maturity covered bond series (FJ28NF01 with fixed 2.6% coupon). Takarékbank sold more than HUF 22 billion five and HUF 1.4 billion ten years tenors. Half of the issued volume was purchased by NBH, in accordance with its program.

Takarék Mortgage Bank raised HUF 44.9 billion funds in the first half of 2018 (non consolidated data), out of which HUF 20 billion was senior unsecured bonds and HUF 24.9 billion covered bonds, comparing the HUF 32.5 billion of the same period of last year, which consisted exclusively covered bonds. Mortgage bond issuances have been dominated since 2015.

In the first quarter Takarék Mortgage Bank bought back HUF 9 billion covered bonds (FJ18NV01). In the first three months of 2018 3 series (covered bonds and senior unsecured bonds) matured in a value of HUF 13.8 billion. There were no maturities or buybacks in the second quarter of 2018.

HUF 184.2 billion book value of mortgage bonds as of 30 June 2018 increased by 5.3% or HUF 9.2 billion from figures of 30 June 2017 (HUF 174.9 billion).

Government and Hungarian Development Bank bonds	19,733	22,864	22,865
Total	19,733	22,864	22,865

As of 30 June 2018, the net present value of ordinary collateral was HUF 238.8 billion and the present value of mortgage bonds were HUF 193.2 billion, and the present value of collateral exceeded that of outstanding CMBs not yet repaid with a ratio of 121.01%.

The ratio of the net amount of net ordinary and supplementary collateral principal to unpaid nominal value of outstanding mortgage bonds was 121.8%, the net amount of net ordinary and supplementary collateral interest to the unpaid interest on outstanding mortgage bonds was 219.6 % in June 30, 2018. The collateral value of real estate covering ordinary collateral was HUF 657.99 billion on 30 June 2018. Compared to the amount from 31 December 2017 (HUF 676.25 billion) it has decreased by 2.7%. The loan coverage ratio (LTV) on normal collateral was 29.73% in 30 June 2018.

Deposits

The consolidated stock of deposits of the Group was HUF 292.8 billion (in IFRS terms) at the end of June 2018, which is 2,9% higher than one year ago, while 11.1% lower than it was at the end of last year.

On annual basis the stock of corporate deposits expanded by 21.8%, while that of households decreased by 22%. The combined stock of deposits narrowed by HUF 36.4 billion compared to the end of 2017, of which HUF 29 billion is due to decrease in household deposits. On annual basis, though, the decrease in household deposits (HUF 26.9 billion) was more than offset by the growth of corporate deposits in amount of HUF 35.2 billion.

Looking only at sight deposits, their stock markedly increased on either annual or semi-annual terms. In case of household customers, the increase on annual basis was HUF 11.0 billion (13.2%), from which HUF 3.3

¹ Non-consolidated data of TakaréK Mortgage Bank Plc. only, according to HAS

billion was realised in the last half year. The escalation is even more impressive in corporate segment, where the growth was HUF 24.9 billion (36.9%) on annual and HUF 12.9 billion on half year basis.

Other liabilities

Takarék Mortgage Bank reported provisions related to contingent and future liabilities in amount of HUF 5.8 billion among other liabilities of HUF 10.6 billion, of which the most significant items are related to the following events:

- The Group joined the rationalization project initiate by Takarékbank, with provision for HUF 520 million due to organizational changes in connection with the project (HUF 111 million was released in the first half of 2018)
- In 2017, TakaréK Mortgage Bank expressed its willingness of replacement on some IT systems and the IT software company has been informed about that. For future contractual obligations, which form part of an existing contract between the parties, it is said that the Bank recognised a provision of HUF 4,605 million.

As of June 2018, the amount of liabilities due to to early repayment of loans amounted to HUF 866.8 million. The value of liabilities to suppliers at the end of the first half of the year was HUF 585.9 million and the accruals amounted to HUF 1,239.2 million.

Shareholders' equity

The share capital of the Group fell from HUF 57.5 billion from 30 June 2017 to HUF 52.1 billion till 30 June 2018, but on the half-yearly basis a HUF 1.8 billion growth was observed. The year-to-year decrease was attributable to the parent company's accumulated loss in the second half of 2017 (HUF 4.4 billion). Among the elements of equity, the Group showed HUF 14 billion as non-controlling interests. The accumulated profit attributable to equity holders amounted to HUF 2.7 billion at the end of June 2018.

Capital position

The Hungarian National Bank – in accordance with the request from the Integrational Organization of Cooperative Credit Institutions (SZHISZ), the Bank of Hungarian Savings Cooperatives Ltd. (Takarékbank), TakaréK Mortgage Bank and TakaréK Commercial Bank – issued resolution H-EN-I-36./2017 ruling to grant exemption for the Group from the individual and subconsolidated compliance obligations.

The total own funds of the Integrational Organization of Cooperative Credit Institutions amounted over HUF 232 billion at the end of June 2018, while its capital adequacy ratio was 16,72%.

DECLARATION

The management report for the first half of 2018 of TakarékJelzálogbank Nyrt. (Takarék Mortgage Bank Plc.) is based on consolidated, non-audited IFRS financial statements. The effect of the transition from IAS 39 to IFRS 9 – according to the standard – has been recognised in the opening retained earnings as at 1 January 2018.

Takarék Jelzálogbank Nyrt. hereby declares that the half-year financial statement was made in good faith and gives a true and fair view of the issuer financial position, profit and losses and does not conceal any fact or information which is relevant for the assessment of the position.

At the same time, it should be noted that transitional changes in equity because of IFRS 9 and interim IFRS 9 effects are based on the best estimate of the company, but the expected methodological clarifications in the second half of 2018 do not exclude the possibility of changing the estimate in the Consolidated Financial Statements for the year ended 31 December 2018. If this is the case, this will be presented separately in the Annual Consolidated Financial Statements of 2018.

Budapest, 16 August, 2018

Dr. Gyula Nagy
Chief Executive Officer

András Bannert
Deputy-CEO

Consolidated Financial Statements of TakaréK Mortgage Bank Plc. prepared in accordance with International Financial Reporting Standards (IFRS)

The consolidation fully applies also to TakaréK Kereskedelmi Bank Ltd. (Takarék Commercial Bank Ltd.) and Magyar Kártya Szolgáltató Zrt. (Hungarian Card Service Ltd.). Companies consolidated in the first half of 2017 – Diófa Alapkezelő Zrt. (Diófa Fund Management Ltd.), TakaréK Ingatlan Zrt. (Takarék Real Estate Ltd.), TakaréK Lizing Zrt. (Takarék Leasing Ltd.) and its Croatian subsidiary Central European Credit dd (Central European Credit d.d.), TakaréK Invest Kft. (Takarék Invest Ltd.), Káry-Villa Ingatlanfejlesztő Kft (Káry Villa Real Estate Development Ltd.), Diófa Ingatlankezelő Kft. (Diófa Property Management Ltd.) -, furthermore the jointly controlled operations – Díjbeszedő Faktorház Zrt. (Díjbeszedő Factoring Ltd.), Díjnet Zrt. (DíjNet Ltd.), Díjbeszedő Informatikai Kft. (Díjbeszedő IT Llc.), and Magyar Posta Befektetési Szolgáltató Zrt. (Hungarian Post Investment Ltd.) were sold to TakaréKbank in December 2017. As of June 30, 2017, the consolidated balance sheet includes also the balance sheet value of these companies after the consolidation effects but the balance sheet data as of 31 December 2017 and 30 June 2018 are not included in the balance sheet. The profit/loss of the sold companies reported in the result of the discontinued operations in the profit and loss statements of 30 June 2017 and 31 December 2017 in order to ensure the comparison. Following the sale, on June 30, 2018, the profit and loss account includes the data only of the 3 fully-owned companies. The Magyar TakaréK Befektetési és Vagyonkezelő Zrt. (Hungarian TakaréK Investment and Assset Management Ltd.), that was also sold in December 2017, was consolidated using the equity method, therefore it is not reported in the result of the discontinued operations in the profit and loss statement for comparability.
